

## About Reach Grow Exceed Engineering – Aviation Services

Reach Grow Exceed Engineering (RGE) is a leading diversity-supplier that provides quality construction management and design services to our partners. By playing a key role in our partners’ teams, RGE has managed the design and construction of infrastructure and utility projects. At RGE, we value working safely. We deliver projects for our partners by focusing on the details, being open and willing to do the work while maintaining the highest integrity.

### Aviation Experience

RGE aviation experience is local, national and international. It includes airside and landside design and management.

Key project details are listed below.

#### WHY RGE?

- **Core Values:** Do it Safe & Right, Open & Willing, Powerful Communicators, Have Fun!
- **Licensed Staff:** 30% of Staff are Licensed Professional Engineers
- **Capacity** to handle projects with construction value totaling over \$500 million
- **Expertise** formed and built on over 100 major infrastructure projects successfully completed

#### PROJECT NAME

South Airfield Detention Consolidation (SADC)

#### PRIME PARTNER

Chicago Department of Aviation (CDA)

#### WORK PERFORMED

Project Management

#### DESCRIPTION

Was a part of the civil engineering management team that oversaw the planning, preliminary design, review and coordination of the SADC project. SADC is a project located within Chicago’s O’Hare International Airport. The design consisted of filling in the Central Detention Basin and expanding the South Detention Basin to compensate for the loss storm water storage volume. The compensated storm water will be conveyed through a 16-foot tunnel.

#### PROJECT NAME

Aircraft Rescue and Fire Fighting (ARFF #2)

#### PRIME PARTNER

Chicago Department of Aviation (CDA)

#### WORK PERFORMED

Project Management

#### DESCRIPTION

Was part of the civil engineering management team that oversaw the design review and coordination (Utilities and Site) of the ARFF #2 project. ARFF #2 is located within Chicago’s O’Hare International Airport. It is a new fire house building which included site construction management of the relocation of the original ARFF #2 that had to be demolished because of the new runway and taxiway configurations.

#### PROJECT NAME

Runway 9C-27C Bid Package #3 & Runway 4L-22R Rehabilitation

#### PRIME PARTNER

Chicago Department of Aviation (CDA)

#### WORK PERFORMED

Transportation Planning

#### DESCRIPTION

Coordination and review with all utility companies having underground facilities within the new runway construction zone. Runway 9C-27C is a new runway that is part of the O’Hare International Airport modernization program. Runway 4L-22R is an existing runway being rehabilitated.
